## Career Objective

Motivated and detail-oriented **Full Stack MERN Developer** with hands-on experience in building projects using React.js, JavaScript, HTML5, CSS3, Node.js, Express.js, and MongoDB. Skilled in developing clean, responsive, and user-friendly web applications. Seeking an opportunity to contribute to a collaborative development team and apply my full-stack skills in real-world projects.

## Technical Skills

- **Languages:** HTML5, CSS3, JavaScript (ES6+)
- **Frontend:** React.js, Tailwind CSS, Responsive UI Development
- **Backend:** Node.js, Express.js, MongoDB
- **Authentication & Services:** Firebase Authentication, Cloudinary, Nodemailer
- **Tools & Version Control:** Git, GitHub, VS Code
- **Deployment:** Vercel (Frontend), Render (Backend)

## Projects

### Real-Time Chat Application (In Progress)

- Developed a real-time chat app using WebSocket for instant messaging
- Implemented token-based authentication for secure login
- Integrated webhooks for user communication handling
- Enabled live messaging when users are active
- Built using React.js (frontend) and Node.js (backend)

Tech Stack: React, Node.js, WebSocket, JWT/Auth

### Todo Management Application:

- Built full-stack Todo app with Email/Google authentication (Firebase)
- Implemented role-based access (Admin/User)
- Developed CRUD operations with real-time updates
- Designed responsive UI using React + Tailwind CSS
- Deployed on Vercel (frontend) and Render (backend)

**Tech Stack:** React, Node.js, Express, MongoDB, Firebase

**Live:** <https://todo-app-nu-lovat.vercel.app>

### PrimeStay – Hotel Management System

PrimeStay is a full-stack hotel management web application built using JavaScript, React, Node.js, Express, and MongoDB. The project includes both Admin and User panels, where only authorized admins can access the admin dashboard.

- Built MERN-based hotel management system with Admin & User roles
- Admin: manage hotels, rooms, images (Cloudinary)
- User: view hotels, book rooms, manage profile

**Tech Stack:** React, Node.js, Express, MongoDB

### Tic Tac Toe Game

A browser-based Tic Tac Toe game built using HTML, CSS, JavaScript, and React.js, offering a smooth and engaging user experience.

Features:

- Two-player mode, Dynamic game board rendering
- Win, lose & draw detection, Game reset functionality
- Responsive and clean UI, Built with reusable React components

## Training

MERN Stack Developer Trainee — Devex Hub Pvt. Ltd., Mohali (Aug 2025 –Feb 2026)

- Completed MERN Stack training covering MongoDB, Express.js, React.js, and Node.js.
- Built responsive user interfaces using React.js, Tailwind CSS, and JavaScript (ES6+).
- Developed backend APIs with Node.js, Express.js, and MongoDB.
- Implemented authentication, CRUD operations, and basic role-based access control.
- Used Cloudinary for image uploads, Nodemailer for email notifications, and Git/GitHub for version control.

## Education

- Bachelor of Computer Applications (BCA) — Himachal Pradesh University (2022 – 2025)
- 12th (Senior Secondary) — HP Board (2021 – 2022)
- 10th (Matriculation) — HP Board (2019 – 2020)

## Key Strengths

- Strong React.js & JavaScript fundamentals
- Problem-solving and quick learning ability
- Team player with good communication skills
- Basic backend understanding (Node.js, Express, MongoDB)
